

# Fence

Welcome

For orderliness  
For beautiful environment  
For protection of our property  
For the success of our customer

Brief introduction

Highway, Railway fence series

Housing district/ Gardon fence

Airport fence series

Playground fence

Barbed wire fence

Field fence

Workshop fence series

Temporary fence series

Fence fittings

## TP 01

**Material:** GB Q195,Q235 Cold drawing low carbon steel wire

**Anti-rust Processing (Surface Treatment)** :Electro Galvanized, Hot-Dipped Galvanized, PVC spraying and coating, it is corrosion resistance, aging resistance and weather resistance.

**Installation:**1)Directly bury under the ground  
2)Fixed on the cement floor with Flange Plate.

What's more, according to security request, we can fix barbed wire, razor wire, and elbow on the fence.

**Application:** Used extensively as protective belt at both sides of road, highway and railway. As a quite flexible fence, frame fence could not only be permanent mesh wall but also temporary bar net, just according to the holding mechanisms.

TP 08

## Products specification:

Wire dia:3.0 – 5.0 mm Mesh size:70mm x 150mm

Steel frame: 14mmx20mm 20mmx20mm

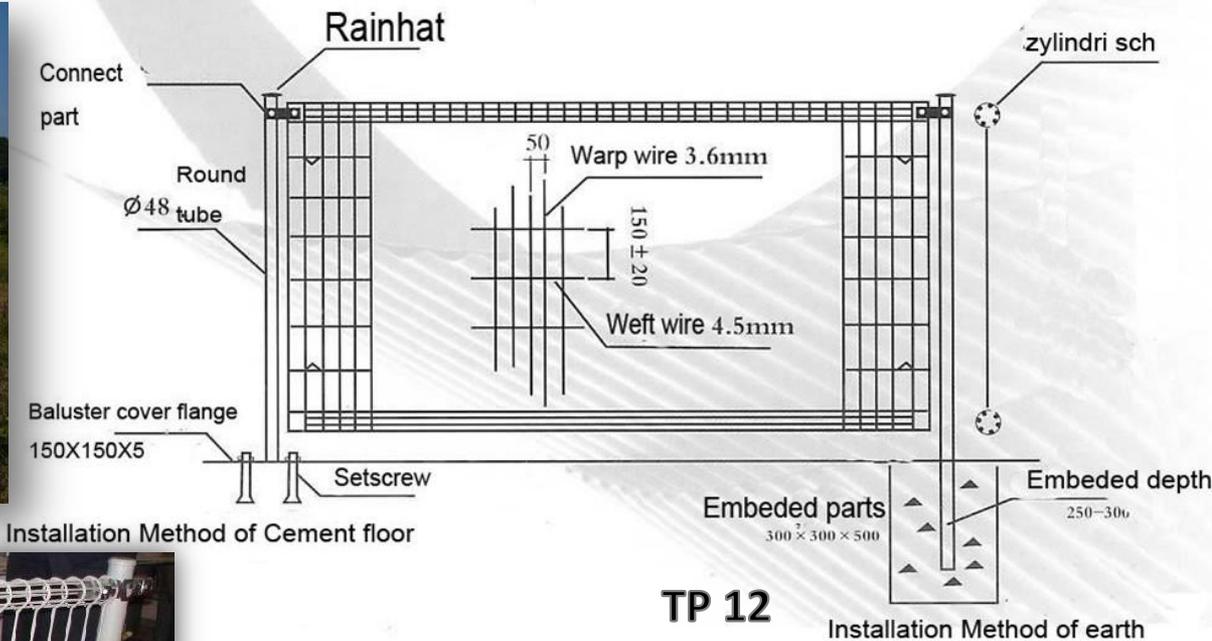

20mmx30mm 20mmx40mm

Post:Φ48U type, C type, Peach type, D type.

Post high: 2.5m – 3.0m

TP 10

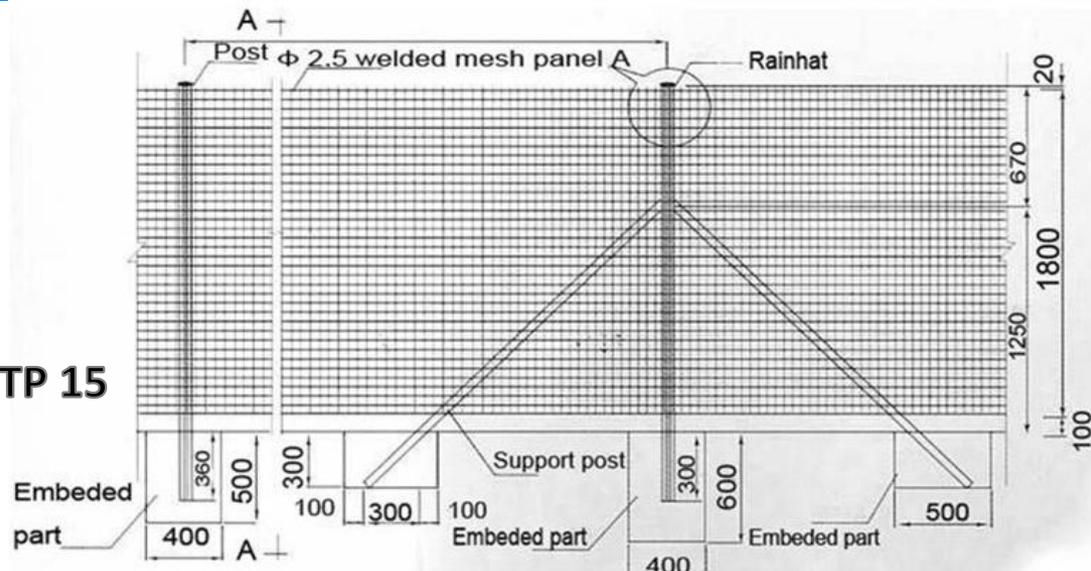

TP 11

**Structure:** The edges are cylinder roller with cold-draw low-carbon steel wire, Fixed by the connection accessories and steel pillars.

TP 21

## Airport fence series

The main feature of airport fence is high and wide mesh sheet, good anti-climbing and impact resistance ability. Double corrosion resistance for surface, so the service life can be more than 10 years, It is very popular in many major airport. Along with the widely using for airport fence, we introduce 3 kinds of new products.

Wire dia.: 5.0 mm  
Mesh size: 50 x 100 mm  
Post : 60 x 60 mm

TP 25

## Main technical parameters:

**Welded wire mesh size:**

2160 x 4000 mm

**Wire dia.:** 4.5 mm

**Mesh size:** 75 x 150 mm

**Frame:** 30 x 30 mm

**Post:** 75 x 4500 mm

**Surface treatment:** Hot galvanized + PVC , Hot galvanized + Static Spraying Plastic.

TP 26

TP 27

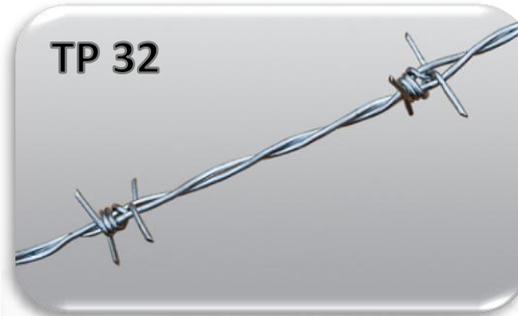

**Characteristics:** The mesh panel is firm and durable, multigrid pattern , broad vision, beautiful shape.

Merit of chain link fence: Good elasticity and tension, impact resistance, the whole of the mesh surface give a feeling of sport. Particularly applicable to stadium, school playground, places of organs and other places.

TP 32

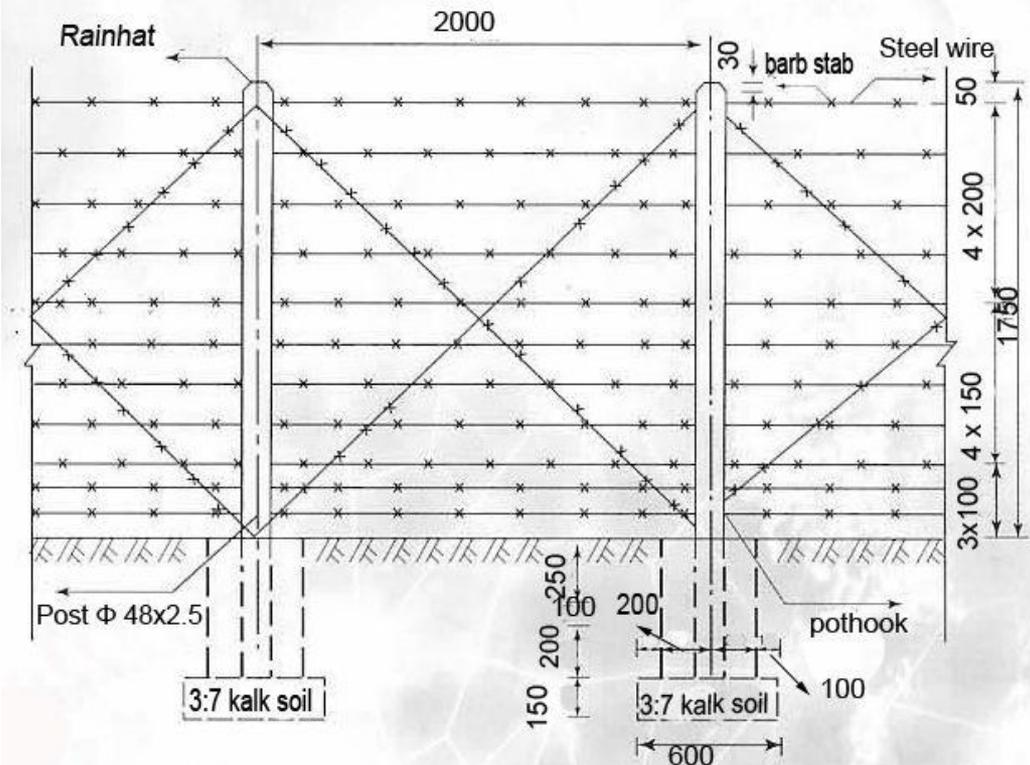

TP 33

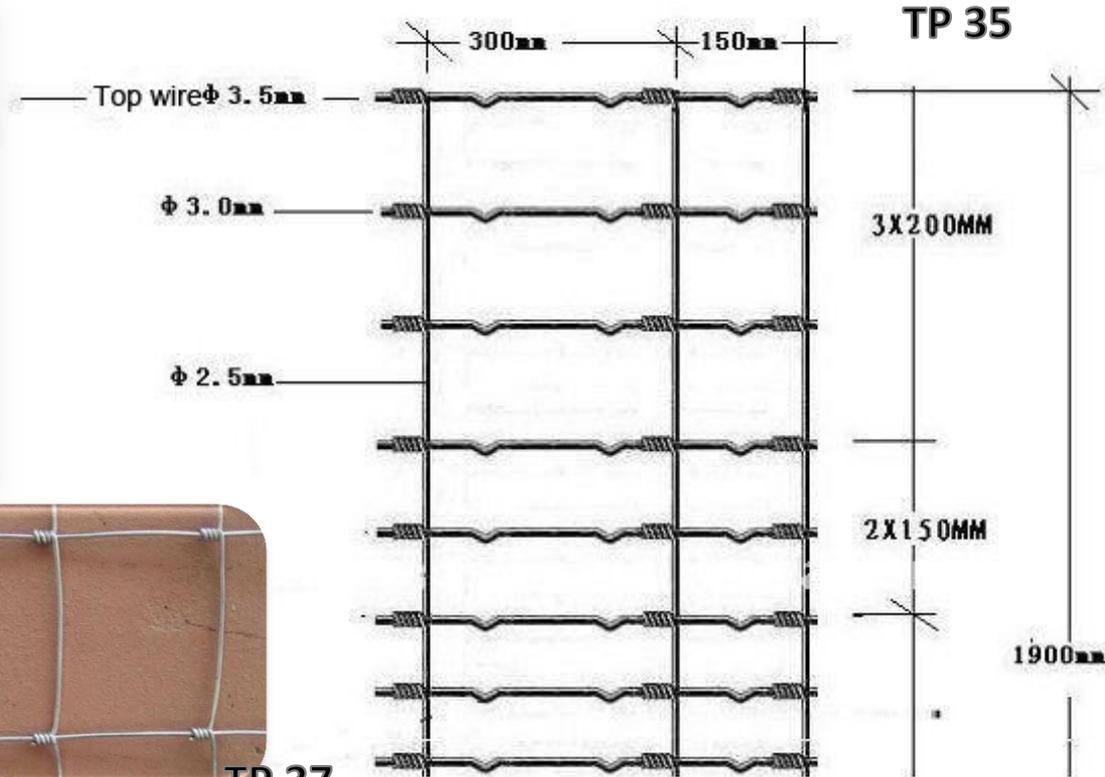

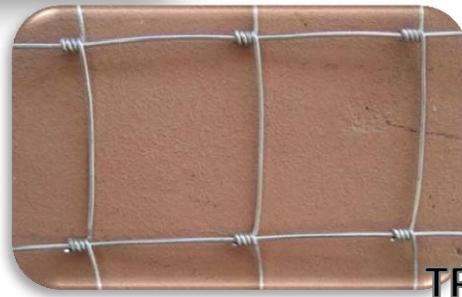

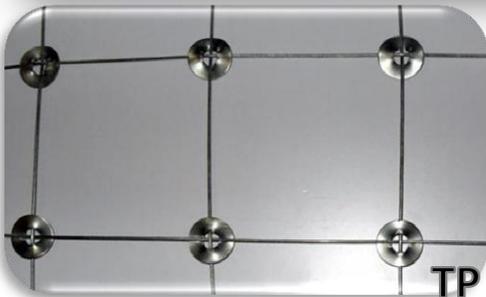

**Materials:** High quality low carbon steel.

Wire (galvanized wire, PVC wire).

**Weaving and characteristic:** Twist and weaving, firm and beautiful.

**Uses:** Used as barrier for lawn, railways, expressways etc.

**Field fence also called cattle fence or grassland fence**

**Material:** high intensity galvanized steel wire.

**Tensile strength:** Line wires: 750-850N/mm<sup>2</sup>

Cross wires: 350-450N/mm<sup>2</sup>

**Weaving and characteristic:** It is made with Galvanized knot, reasonable design, beautiful surface, high Tensile strength, strong corrosion resistance.
